

Environmental Scientist/Technician

Role Overview

AVESI has a career opportunity for an **Environmental Scientist/Technician** fulltime position in the **St. Louis, MO metropolitan area**. Do you have environmental experience or a related science degree with 0-3 years of experience? We encourage you to apply for this opportunity. We are dedicated to providing the atmosphere to allow individuals to gain real world experience in order to grow their career while serving their communities in environmental cleanup efforts.

Key Responsibilities

- We are in need of immediate support
- Preference given to candidates with OSHA HAZWOPER training
- The position is approximately 90% field work outdoors
- Will work under the supervision of a Senior Geologist/Environmental Engineer
- Field activities include; logging of soil borings and rock cores, collecting soil, groundwater, surface-water and sediment samples as well as documenting field activities
- Will support remediation contractors and collect data from soil and groundwater remediation systems
- Collecting data for field mapping and map preparation
- Must follow company safety standards, participate in safety training and prepare and implement site safety protocols
- Possible paid travel opportunities to project sites in Missouri and surrounding states to those interested

Skills / Qualifications

- BS in Env Science, Biology, Soil Sciences, Geosciences, or related degree preferred
- 0 to 3 years + environmental field experience preferred
- 40-hour HAZWOPER OSHA Training preferred
- Experience collecting soil/water/air samples and interpreting results a plus
- Must be a self-starter with good written and verbal communication skills
- Attention to detail and strong time management capabilities required
- Will be required to lift equipment and carry laboratory samples
- Must be physically fit and capable for outdoor work
- Ability and willingness to travel to nearby project sites in Missouri and surrounding states
- Must pass drug test, annual physicals/trainings, background check and must have a satisfactory driving record in accordance with the Company's driving policy

Physical Requirements

- 90% field work in outdoor environments
- Able to lift 40 lbs.
- Physically fit and able/willing to work in various weather conditions conducting sampling and mapping activities
